

- xx, yy, zz, xy, xz, yz files contain maps with the corresponding filtered gravity gradient components at ellipsoid height  $h=250$  km. Color scale : Eotvos
- dxx, dyy, dzz, dxy, dxz, dyz files contain maps with the corresponding differences between filtered gravity gradient components and EIGEN-6C3 calculated gravity gradient components at ellipsoid height  $h=250$  km. Color scale : Eotvos
- crust and sediment files contain maps with the corresponding layer's depth and density
